THE EQUITABLE LIFE

ASSURANCE SOCIETY

of the United States holds a larger sur-

plus, writes a larger annual business,

and has a larger amount of as-

surance in force than any other com-

pany in the world.

Its latest form of Policy is un-

derstood after one year, incontestable

after three years, "non-forfeitable"

after three years.

We cannot form any idea until the

end of the current month what the obli-

gations of the National Government may

amount to, but it is evident that the fi-

nanical condition is worse than we

anticipated. Hence the public will want

with anxiety the report which Dr. Ro-

mero has ordered the Contaduria to

draw up on this subject. In the single

item of the Madero Docks there is an

Acuerdo estimated at 20,000,000 dollars

or 21,300,000 sterling, signed

by President Polignault and all his Cabinet

Ministers last month, which has been

kept dark till today. We publish the

Acuerdo in another column, and

trust that the public will find it a re-

markable document, and that it will

have an active effect, going back as far as 1887.
